

SellGrow

AI-Powered Digital Business Platform

Scope Document (Version 2.0)

Document Information

Product Name: SellGrow

Product Type: SaaS (Software as a Service)

Deployment:

- Web Application
- Android Application
- iOS Application

Target Market:

- India
- Middle East
- Europe
- USA
- Global SMEs & Enterprises

Executive Summary

SellGrow is an AI-powered Digital Business Platform that enables businesses to establish, manage, automate, and grow their digital presence from a single platform.

Instead of using multiple software products for website management, product catalogues, CRM, WhatsApp automation, AI customer support, marketing, analytics, and sales management, SellGrow consolidates everything into one unified solution.

The platform is designed for businesses of all sizes, including small retailers, manufacturers, distributors, healthcare organizations, educational institutions, hotels, restaurants, startups, and enterprises.

Vision

To become the world's most intelligent AI-powered Business Growth Platform by simplifying digital transformation for every business.

Mission

Enable every business to sell smarter, communicate better, automate operations, and increase customer engagement using Artificial Intelligence.

Target Customers

Small Businesses

- Grocery Shops
- Retail Stores
- Hotels
- Restaurants
- Salons
- Clinics
- Pharmacies

Medium Businesses

- Manufacturers
- Dealers
- Distributors
- Educational Institutions
- Hospitals

Large Enterprises

- FMCG Companies
- Pharmaceutical Companies
- Automobile Industry
- Textile Industry
- Corporate Organizations

Platform Architecture

The platform consists of modular services.

- Business Website
- Product Catalogue
- AI Product Assistant
- 360° Product Experience
- Sales CRM
- WhatsApp Business Automation
- AI Receptionist
- AI Customer Support
- Marketing Automation
- Social Media Automation
- Analytics
- Marketplace
- Membership System
- Workflow Automation

Each module can be enabled independently based on customer subscription.

Module 1 – Business Website

Features

- Home
- About Us
- Products
- Services
- Gallery
- Videos
- Testimonials
- Careers
- Blog
- Contact
- Google Maps
- Lead Forms
- SEO Settings
- Multi-language Support

Module 2 – Product Catalogue

Every business can publish unlimited products.

Each product contains

- Images
- Videos
- PDF Brochure
- Product Description
- Features
- Specifications
- Benefits
- Applications
- Variants
- Colors
- Sizes
- Warranty
- Downloads
- Related Products

Module 3 – AI Product Assistant

Every product includes an AI-powered assistant.

Customer Capabilities

- Ask questions by text
- Voice conversation
- Multi-language support
- Product comparison
- Product recommendations
- Warranty questions
- Usage guidance
- Installation support
- Troubleshooting

Supported Languages include English, Tamil, Hindi and other major international languages.

Module 4 – Product Experience

Interactive product showcase.

Features

- Image Gallery
- Video Gallery
- 360° Product View
- AR Product Preview (Future)
- Download Brochure
- AI Chat
- Request Demo
- Book Appointment
- Share Product
- Enquiry Form
- Buy Now

Module 5 – Sales CRM

Designed for field sales teams.

Sales Dashboard

- Daily Target
- Monthly Target
- Achievement
- Sales Performance
- Follow-ups
- Customer Visits
- Pending Activities
- Revenue
- Attendance
- GPS Tracking

Customer Visit Recording

Sales representatives can record

- Voice Notes
- Meeting Conversation
- Images
- Customer Feedback

- Product Interest
- Competitor Information
- Follow-up Requirements
- Purchase Timeline

AI Meeting Summary

Artificial Intelligence automatically generates

- Meeting Summary
- Customer Intent
- Customer Sentiment
- Buying Probability
- Action Items
- Suggested Follow-up
- Manager Notes

Reports are automatically shared with managers and business owners.

Module 6 – Customer Relationship Management

Customer Profile

- Contact Details
- Company Details
- Previous Purchases
- Communication History
- Meeting History
- Support Tickets
- Follow-up Timeline
- Documents
- Payment History

Module 7 – WhatsApp Business Automation

Businesses can automate customer communication using WhatsApp Business.

Customer Experience

When a customer sends:

Hi

The AI automatically responds with a customized business menu.

Example:

Restaurant

- View Menu
- Order Food
- Today's Offers
- Book Table
- Track Order
- Payment
- Customer Support

Salon

- Book Appointment
- Hair Cut
- Spa
- Facial
- Membership Plans
- Offers
- Payment

Hospital

- Doctor Appointment
- Health Packages
- Reports
- Emergency Contact
- Insurance
- Online Payment

School

- Admission
- Fee Payment
- Transport
- Circulars
- Results
- Parent Support

WhatsApp Automation Features

- Welcome Messages
- AI Auto Reply
- Interactive Menus
- Product Catalogue
- Order Placement
- Appointment Booking
- Payment Links
- Invoice Sharing
- Order Tracking
- Live Agent Transfer
- Broadcast Campaigns
- Customer Segmentation
- Promotional Campaigns
- Abandoned Cart Reminders
- Delivery Notifications
- Feedback Collection
- Review Requests
- Multi-language Conversations

Module 8 – AI Receptionist

24×7 virtual receptionist.

Capabilities

- Answer Calls (Future Integration)
- Answer Chat
- Book Appointments
- Register Customers
- Collect Requirements

- Route Enquiries
- Schedule Meetings
- Escalate to Human Staff

Module 9 – AI Customer Support

AI handles

- Product Questions
- Warranty
- Complaints
- Returns
- Service Requests
- Installation Support
- FAQs
- Technical Assistance

Module 10 – Social Media Automation

Supported Platforms

- Facebook
- Instagram
- LinkedIn
- YouTube
- X
- Google Business Profile

Features

- AI Content Creation
- Auto Publishing
- Scheduled Posts
- AI Caption Generator
- Hashtag Suggestions
- Analytics
- Campaign Reports

Module 11 – Email & SMS Marketing

Email

- Newsletter
- Promotional Campaigns
- Product Launch
- Follow-up Emails
- AI Email Writing

SMS

- OTP
- Order Updates
- Payment Reminder
- Promotional Campaigns
- Appointment Reminder

Module 12 – AI Content Studio

Generate

- Product Descriptions
- Blogs
- SEO Articles
- Advertisements
- Social Media Posts
- Video Scripts
- Landing Page Content
- Sales Proposals

Module 13 – Analytics Dashboard

Business Insights

- Website Visitors
- Product Views
- Conversion Rate
- Lead Sources
- Sales Trend
- Revenue

- Customer Behaviour
- Sales Performance
- Team Performance
- Marketing ROI

Below is the **merged and updated Module 14** that replaces the existing **Marketplace** section in your scope document. It combines the original scope with the new **E-Commerce** capabilities into a single, comprehensive module. This should replace the existing **Module 14 – Marketplace** in your document.

Module 14 – Marketplace & E-Commerce Platform

SellGrow Marketplace is a multi-vendor AI-powered digital commerce platform that enables businesses to establish their own online store, showcase products and services, manage inventory, receive online orders, accept secure payments, and grow their business through a unified marketplace.

All subscribed businesses become discoverable inside the SellGrow Marketplace, allowing customers to search, compare, and purchase products and services from multiple vendors.

Customer Marketplace Features

Customers can search and discover:

- Products
- Services
- Businesses
- Nearby Stores
- Offers
- Categories
- Brands
- Featured Products
- Trending Products
- Best Sellers

Customers can also:

- View Product Details
- Compare Products
- Add to Wishlist
- Add to Cart

- Buy Now
- Track Orders
- Download Invoices
- Submit Reviews & Ratings
- Contact Vendors

Vendor Registration

Businesses can register as Marketplace Vendors and create their own online store.

Each Vendor Profile includes:

- Company Information
- Business Logo
- Business Description
- GST Details
- Contact Information
- Email Address
- Mobile Number
- Business Address
- Pickup Address
- Bank Account Details
- UPI ID
- Business Category
- Delivery Locations
- Store Timings
- Vendor Verification Status
- Approval Status

Product Management

Each vendor can publish unlimited products.

Each product supports:

- Product Images
- Product Videos
- PDF Brochure
- Product Description
- Product Features
- Specifications

- Benefits
- Applications
- Product Variants
- Colors
- Sizes
- Warranty
- Downloads
- Related Products
- Brand
- Category
- SKU
- Barcode
- GST Percentage
- Stock Quantity
- Price
- Offer Price
- Discount Percentage

Industry-Specific Product Units

SellGrow supports different inventory units based on business type.

Grocery

- Kilogram (Kg)
- Gram (g)
- Litre (L)
- Millilitre (ml)
- Nos
- Packet
- Box
- Bundle

Fruits & Vegetables

- Kg
- Gram
- Nos
- Dozen

Stationery

- Piece
- Pack
- Box
- Dozen
- Ream
- Bundle

Pharmacy

- Strip
- Tablet
- Bottle
- Tube
- Box

Hardware

- Feet
- Meter
- Roll
- Piece
- Box

General Products

- Nos
- Set
- Pair
- Carton
- Custom Unit

Inventory Management

Vendors can manage inventory through a centralized dashboard.

Features include:

- Available Stock
- Low Stock Alerts
- Out-of-Stock Alerts
- Warehouse Stock
- Reserved Inventory

- Product Availability
- Inventory Reports

Shopping Cart

Customers can:

- Add to Cart
- Buy Now
- Save for Later
- Wishlist
- Update Quantity
- Remove Products
- Apply Coupons
- Apply Promo Codes
- Estimate Delivery Charges

Checkout

Checkout includes:

- Customer Address
- Shipping Address
- Billing Address
- GST Invoice
- Delivery Instructions
- Shipping Method
- Coupon Code
- Wallet
- Order Summary

Payment Gateway

Supported payment methods include:

- UPI
- Credit Card
- Debit Card
- Net Banking
- Digital Wallets

- EMI
- Cash on Delivery (Optional)

Payments are securely processed through integrated payment gateways.

Marketplace Order Flow

The order processing workflow is as follows:

1. Customer places an order.
2. Customer completes online payment.
3. Payment is collected by **SellGrow**.
4. Order is automatically assigned to the respective vendor.
5. Vendor processes and dispatches the order.
6. Customer receives the product.
7. Delivery confirmation is completed.
8. SellGrow deducts:
 - Marketplace Commission
 - Payment Gateway Charges
 - Applicable Taxes
 - Platform Service Charges (if applicable)
9. The remaining amount is settled to the vendor based on the configured settlement cycle.

Vendor Settlement

Supported settlement cycles:

- Daily
- Weekly
- Fortnightly
- Monthly

Vendor Dashboard displays:

- Pending Settlement
- Settlement History
- Commission Details
- Payment Reports
- Settlement Status

Order Management

Vendors can manage:

- New Orders
- Processing Orders
- Packed Orders
- Shipped Orders
- Delivered Orders
- Cancelled Orders
- Returned Orders
- Refund Requests

Vendor Dashboard

Vendors can monitor:

- Orders
- Sales
- Revenue
- Inventory
- Product Performance
- Customer Reviews
- Coupons
- Pending Settlement
- Settlement History
- Monthly Sales Reports
- Business Analytics

Marketplace Analytics

Business owners can monitor:

- Sales Analytics
- Revenue Analytics
- Customer Behaviour
- Product Performance
- Category Performance
- Conversion Rate
- Best Selling Products
- Top Customers

- Marketplace Performance

Super Admin Marketplace Controls

The Super Admin can manage:

- Vendor Approval
- Vendor Verification
- Marketplace Categories
- Product Moderation
- Commission Percentage
- Settlement Rules
- Payment Gateway Configuration
- Payment Reports
- Refund Management
- Return Management
- Order Monitoring
- Coupon Management
- Vendor Performance
- Marketplace Analytics
- Revenue Dashboard

Module Benefits

- Multi-Vendor Marketplace
- Complete E-Commerce Platform
- Secure Online Payments
- Automated Vendor Settlements
- Inventory Management
- Order & Delivery Tracking
- AI-Powered Product Discovery
- Scalable SaaS Marketplace
- Commission-Based Revenue Model
- Business Growth Analytics

Product Positioning

Marketplace & E-Commerce Platform is a core SellGrow module that transforms the platform from a business directory into a complete AI-powered multi-vendor commerce ecosystem. It enables businesses to onboard vendors, manage products and inventory,

process online orders, collect payments, automate settlements, and deliver a seamless shopping experience through a unified SaaS platform.

This merged version fully incorporates the original Marketplace scope with the new e-commerce enhancements into a single cohesive module.

Module 15 – Membership & Subscription

Businesses choose only the modules they require.

Examples

- Website
- Product Catalogue
- AI Bot
- Sales CRM
- WhatsApp Automation
- Social Media
- Marketplace
- Analytics
- Marketing Tools

Subscription

- Monthly
- Quarterly
- Annual

Module 16 – Admin Panel

Platform Administration

- Customer Management
- Subscription Management
- Billing
- User Management
- Role Management
- Feature Management
- AI Usage Monitoring
- Storage Monitoring
- Reports
- Audit Logs

Module 17 – Super Admin

- Multi-Tenant Management
- Global Analytics
- Revenue Dashboard
- Subscription Reports
- Customer Activity
- AI Usage Reports
- Security Controls
- Platform Configuration

Security

- Multi-Tenant Architecture
- SSL Encryption
- Role-Based Access Control
- Two-Factor Authentication
- Audit Logs
- Daily Backup
- API Security
- GDPR-Ready Architecture
- Data Privacy Controls

Technology Stack

Frontend

- React
- Next.js

Mobile

- Flutter

Backend

- FastAPI (Python)

Database

- PostgreSQL
- MongoDB
- Redis

AI

- OpenAI
- Google Gemini
- Claude
- LangGraph
- MCP
- Vector Database

Cloud

- AWS / Azure / GCP

Storage

- Amazon S3 Compatible Storage

Communication

- WhatsApp Business API
- Email API
- SMS Gateway
- Push Notifications

Future Roadmap

Phase 1

- Website
- Product Catalogue
- AI Product Assistant
- Lead Management

Phase 2

- Sales CRM
- AI Meeting Intelligence
- Analytics Dashboard

Phase 3

- WhatsApp Automation
- AI Receptionist
- Marketing Automation

Phase 4

- Marketplace
- AR & 360°
- AI Voice Assistant
- Dealer Portal
- Franchise Management
- API Marketplace

Expected Business Benefits

- Increase customer engagement
- Reduce manual sales effort
- Improve customer support
- Faster follow-ups
- Better management visibility
- AI-driven decision making
- Higher lead conversion
- Reduced operational cost
- Unified digital ecosystem
- Scalable subscription-based business model

Product Positioning

SellGrow is an AI-powered Digital Business Operating Platform that combines Website Builder, Product Experience, Sales CRM, WhatsApp Business Automation, AI Customer Support, Marketing Automation, and Business Analytics into a single scalable SaaS solution for businesses worldwide.
